# SHORT-TERM POOL

INVESTMENT POOL FACT SHEET (MARCH 2023)

## Structured for Preservation

The Short-Term Pool is intended for a time horizon of less than 2 years, because its sole investment objective is to preserve capital. It will be structured to avoid fluctuations in value in nearly all market environments, but at the cost of a very low expected return. Investment performance of this pool will generally follow short-term government interest rates.

## High Quality Investments Only

This pool uses only U.S. Treasury investments, which have virtually no risk of loss, to be consistent with the Pool's sole investment objective.

### Asset Allocation

- U.S. Fixed Income (bonds)
- Global Equities (stocks)
- Cash

### Key Facts

# MODERATE-TERM ESG POOL

INVESTMENT POOL FACT SHEET (MARCH 2023)

## Structured to Emphasize Income

The Moderate-Term ESG Pool is intended for a time horizon of 2-5 years, and will emphasize fixed income investments for the majority of its investments, with a minority allocated to a broadly-diversified portfolio of stocks. There may be short-term fluctuations in value due to changes in interest rates or stock market movements. Growth of capital will be a secondary consideration of this pool.

## Investing Responsibly

This pool integrates responsible investing principles across all of its investments. All of the pool's investment managers use "ESG" strategies (environmental, social, governance) in their investment process. This full ESG use reflects JCF's belief that shareholders have responsibilities and rights.

### Asset Allocation

### Key Facts

# LONG-TERM ESG POOL

INVESTMENT POOL FACT SHEET (MARCH 2023)

## Structured for Growth

The Long-Term ESG Pool is intended for a time horizon of 5+ years, which allows the Pool to be oriented toward long-term growth. This involves short-term fluctuations in value. Consistent with this long-term structure, capital appreciation is expected to be the main source of investment performance over time, with income a secondary consideration.

## Investing Responsibly

This pool integrates responsible investing principles across all of its investments. All of the Pool's investment managers use "ESG" strategies (environmental, social, governance) in their investment process. This full ESG use reflects JCF's belief that shareholders have responsibilities and rights.

## Structured for Growth

The JLens Jewish Advocacy Strategy is comprised of **100% US stocks, which is intended for an investment time horizon of 5+ years.** This means the fund is oriented toward long-term growth but involves short-term fluctuations in value. The strategy tracks the S&P 500 index with a tight tracking error. Consistent with this long-term structure, capital appreciation is expected to be the main source of investment performance over time, with income a secondary consideration.

## Aligns with Jewish Values

This strategy invests in **U.S. Large Cap stocks, starting with the 500 largest U.S. companies and then excluding companies not deemed to align with Jewish values.** The strategy also uses an active advocacy and proxy voting strategy, resulting in direct and measurable impact from its activities.

# MODERATE-TERM PASSIVE POOL

INVESTMENT POOL FACT SHEET (MARCH 2023)

## Structured to Emphasize Income

The Moderate -Term Passive Pool is intended for a time horizon of 2-5 years, and will emphasize fixed income investments for the majority of its investments, with a minority allocated to a broadly-diversified portfolio of stocks. There may be short-term fluctuations in value due to changes in interest rates or stock market movements. Growth of capital will be a secondary consideration of this pool.

## Exclusively Uses Index Funds

The Pool uses only index funds for all of its investments, seeking to replicate the broad universe of the global stock market and the U.S. bond market. There is no use of responsible investment strategies (“ESG” – environmental, social, governance) as there is in the main pools managed by JCF.

### Asset Allocation
