

# Jewish Federations' Response in Israel

**Our Impact Since October 7  
July 2024 Update**

# Fundraising and Allocations

## An Unprecedented Response

Jewish Federations have raised \$833M and allocated \$433M to 520 Israeli NGOs since October 7, **representing over 50% of the funds flowing from global Jewry to Israel**, according to the Israeli Ministry of Diaspora Affairs. The following chart represents allocations to date. We will continue to allocate the remaining funds responsively and proactively to meet strategic priorities.

Fundraising and Allocations Breakdown as of 06/03/2024

### A Nationwide Effort

Our impact has touched every facet of Israeli society with a particular focus on the Gaza border region and the North.

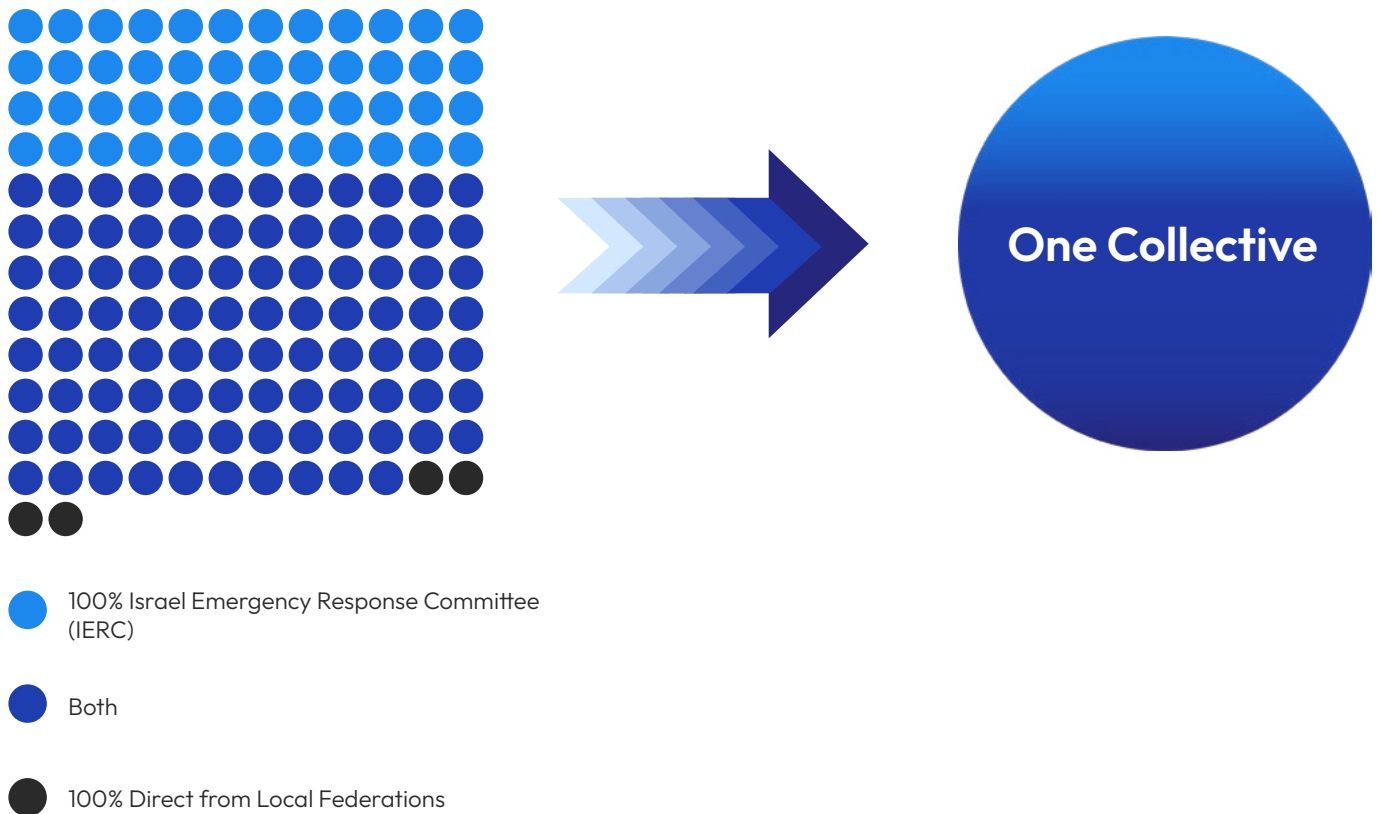

### A United Effort

In the wake of October 7 and rising domestic anti-Zionism, North American Jews remain steadfast in our support for Israel. Jewish Federations have been a pillar of unwavering support since the beginning of the conflict.

Allocation data in this report reflects the pooling of both IERC and individual Federation data collected as of 06/03/2024.

# Our Collective Strength

Our extraordinary fundraising success reflects the collective efforts of all 146 Federations and hundreds of Network Communities. Most Federations allocate funds through the Jewish Federations' Israel Emergency Response Committee (IERC), while others prioritize direct support to Israeli NGOs, particularly in communities with strong existing partnerships. While each Federation has its unique approach, the pooling of resources maximizes our impact, and helps us achieve our shared objectives.

## Thank You to All Who Contributed!

**146**  
Jewish Federations

**150,000+**  
donors across the Federation system

**Hundreds**  
of Network Communities

**Numerous**  
foundations and partner organizations

# Key Partnerships

Our longstanding partnerships with The Jewish Agency for Israel and American Jewish Joint Distribution Committee (JDC) were instrumental in coordinating an effective emergency response, and they received the largest allocations among 520 supported NGOs. The eight organizations, groupings or projects that received the largest allocations are listed below:

## Top Allocations by Grant Total

# Our Strategic Approach

The incredible generosity and swift response of our donors enabled us to address urgent needs immediately. As we assessed the full scope of the crisis’ impact, we established four strategic areas to guide our allocations. Our priority was meeting essential needs first while ensuring that funds were available as the situation evolved.

**Lifeline Services**  
Delivering essential aid and support

**Economic Relief & Recovery**  
Providing financial assistance to struggling businesses, supporting employment challenges, and more

**Medical and Trauma Relief**  
Addressing physical, psychological, and emotional health

**Community Resilience & Rebuilding**  
Empowering communities to create a flourishing future

The rapid and thoughtful distribution of these funds is a testament to the skill and dedication of our professionals in Israel and North America. By coordinating with partners and meticulously vetting organizations, we enabled donors to give generously and confidently, demonstrating the power of the Federation system.

## Israel Emergency Response Committee Allocations

# Lifeline Services

**\$219M supporting 395 Israeli NGOs**

Following October 7, Jewish Federations rapidly mobilized to address the urgent needs of evacuees, victims, and IDF soldiers. We provided essential aid such as food, shelter, clothing, and hygiene products as well as specialized care for infants and vulnerable populations.

Beyond addressing immediate needs, Federations supported pastoral care for mourners as well as educational programs and recreational activities for children and adults to maintain a sense of normalcy and routine. Ongoing allocations continue to meet the basic needs of evacuees and vulnerable populations.

## Food Security for Affected Israelis

**285,486**

Israelis received essential **food assistance**

**1.2M** hot meals served

**22,528**

Israelis received **food cards** totaling \$3.75M

Your money helped revive people's souls. You just helped them become people again. They can continue their lives. That's what your contribution gave us.

**36,910**

evacuees sheltered

**164,736**

Israelis received **basic needs packages**

**53,787**

volunteers activated

**877**

Shivahs attended by **spiritual leaders**

**11,200**

Israelis received **spiritual support**

# Medical and Trauma Relief

## \$101M supporting 195 Israeli NGOs

Jewish Federations prioritized the physical and mental health of Israelis by supporting emergency medical services, increasing hospital capacity, and providing essential supplies to hospitals.

As the crisis evolved, we expanded our focus to include long-term rehabilitation and mental health support, and provide critical access to specialized care for vulnerable populations such as those with disabilities, the elderly, Holocaust survivors, Bedouins, refugees, asylum seekers, released hostages, Arab Israelis, and soldiers. Our ongoing efforts aim to foster healing and resilience throughout Israeli society.

### Medical equipment and supplies provided to:

**27**  
hospitals

**10**  
psychiatric  
hospitals

**3**  
rehabilitation  
departments

**4**  
rehabilitation  
hospitals

### Support for Victims of Terror

**\$35.7M**  
allocated to support  
**8,000 affected  
Israelis**

The therapy sessions that I went to helped me realize that I'm strong and that's what I hang on to.

**\$16M**  
for emergency  
medical support

**406,816**  
Israelis received  
mental health support

# Economic Relief and Recovery

**\$77M supporting 33 Israeli NGOs**

The ongoing conflict has created economic hardship in Israel due to the continuing displacement of over 100,000 Israelis, business closures, and reservist mobilization. In response, Jewish Federations have provided crucial economic relief, including through a loan fund that serves as a financial lifeline for many small and medium-sized businesses that are unable to access traditional banking credit.

Economic relief and recovery will remain a major component of our response strategy over the next five years. These initiatives aim to not only stabilize the current economic situation but also signal Federation support for those experiencing financial hardship throughout Israel.

**Jewish Federations' Israel  
Emergency Loan Fund**

**\$29M**

allocated

**5**

loan platforms

**\$16M**

remaining for allocation

**481**

businesses received loans

**We were able to move forward and start working with our own [farming] equipment. We're back to relying on our strength, abilities, and knowledge. It feels great!**

economic relief and  
recovery programs

**5,500**

hours of training  
provided to affected Israelis

**Over 300**

hours logged by  
volunteers  
assisting affected Israelis

# Community Resilience and Rebuilding

**\$36M supporting 62 Israeli NGOs**

Community resilience and rebuilding are fundamental to Israel's recovery and future growth. Jewish Federations have launched programs to help Israelis return home, rebuild their communities, and strengthen the social fabric of society. Initial efforts have focused on the hardest hit areas in Northern and Southern Israel, including the cities of Ashkelon, Ofakim, Rahat, Nahariya, Sderot and Kiryat Shmona as well as dozens of kibbutzim. These allocations represent the beginning of a long-term commitment to Israel's recovery and revitalization.

## Examples of Initiatives Funded

- Emergency preparedness for early childhood professionals
- "Women's circle" resilience programming
- Educational programming to engage youth and build STEM skills
- Community-building events and cultural activities
- Opportunities for displaced community members to come together in person

**Your donation significantly helps us continue to strengthen our community and ensure our continued prosperity.**

-Beneficiary from Northern Israel

**123,000+**

evacuated Israelis need to  
rebuild their communities

**58** communities in the North  
&

**45** communities in the South

benefited from  
resiliency programs  
and services
