

Prayer for California North Bay Wildfires

Our God and God of our Ancestors:

Please bring respite and healing for all those touched by the forest fires altering our North Bay Area home.

Grant calm to those who are frightened; comfort and sustenance to those who are displaced; companionship to those who are walking alone; solace to those who are grieving.

As brave men and women strive to calm the fires traveling across our homes, our beloved Camp Newman and our community, may we find the courage of sanctuary in each other's embrace. May our tradition bring us solace, may the wisdom of our ancestors bring us direction, may Divine presence bring us encouragement.

May we reap the blessing of a sukkat shalom. As a shelter of peace unfurls over us, may the unity of our hearts gather all who bring their broken parts together in this sacred community.

Amen
