

VISION

We imagine a world where women and girls in the Jewish community have the opportunity and support to achieve their full human potential.

We believe our Jewish heritage informs our Jewish future.

We believe in a world where Jewish women's voices are heard.

We believe that if we empower women and girls in the Jewish community, they will do great things in the world.

MISSION

The San Francisco Jewish Women's Fund strives to strengthen the Jewish community by helping women and girls in the Jewish community flourish. We grant primarily in the San Francisco Bay Area but also consider grants nationally and in Israel. With this expression of *tikkun olam*, we deepen our connections to each other and to our Jewish heritage.
